

## **Clubs reporting to Bowls Alberta Participants to your Club**

Remember your best estimates are okay for those participants (excluding members) who come and play at your club! It is understood that you can't always ask people their age, you can't get accurate numbers from groups that come in, and you can't put a ton of time into this collection process. Your best estimates for all your events, reported at the end of the season is what will help us comply with reporting. For event pleast state where corporate, family outing, fundraiser, sport try it, etc.
